

A to Z!

We're challenging groups from across the region to take part in an international trip in 2026 and visit another country – or city or town in another country – for every letter of the alphabet. How many can Girlguiding London and South East England members reach?

We're tracking who is going where on our website, with trips being added when permission to plan forms are submitted. Unsure where to start? Talk to other local leaders, speak to your local commissioner and reach out to your county international advisor.
