

## London and South East England's International A-Z Challenge 2026

We're challenging groups from across the region to take part in an international trip in 2026 and visit another country – or city or town in another country – for every letter of the alphabet. How many can London and South East England members reach?

Below is some inspiration of ideas in Europe to get us started but you may be thinking of going further afield, which is great, too.

When your Permission to Plan is received through GO (as all internationals taking place have to be signed off at region level) we will add your group name and destination to our **A-Z display on the website** so we can see where people are going – and spot which letters still need visitors.

<b>A</b>	Austria, Amsterdam, Athens, Antwerp, Almeria, Alicante, Andorra
